

LITERATURE AND INFORMATION SURVEY

The literature and information survey included a review of historical aerial photographs, inquiries as to past land uses, a review of various regulatory agency files, and a review of relevant published regulatory agency lists.

Site History

A review of historical aerial photographs, Lusky's, Pacific Bell, and General Telephone Directories, Sanborn Fire Insurance Maps, and historical information provided by the owner of the subject site were used to help assess the history of the subject site.

Aerial Photograph Interpretation

Historical aerial photographs, dated 1928, 1952, circa 1965, and 1996 were reviewed to help assess site history. These photographs were obtained from the Los Angeles County Public Works Department - Material Engineering Department and the Boeing Corporation. Additionally, aerial photograph coverage for the years between 1928 and 1952 and for the years between 1965 and 1996 were not reasonably ascertainable or available. The aerial photograph summary is provided below in Table IV.

TABLE IV
Summary of Aerial Photograph Review

Year/Source	Site Use	Site and Adjacent Property Observation
1928 1" = 2,000'	Agricultural	Review of the 1928 aerial photograph reveals the subject site and adjacent properties to be agricultural in nature.
1952 1" = 2,000'	Industrial and Vacant	Review of the 1952 aerial photograph reveals the subject site to be occupied by a small portion of Building 29 (then referred to a Building 44). Buildings 57, 58, and 67 do not appear to have been constructed prior to 1952. Adjacent properties are associated with the MDAC C-6 facility.
Circa 1965 1" = 500'	Industrial	Review of the 1965 aerial photograph reveals the subject site to be occupied by portions of Buildings 29, 57, and 58. Building 67 does not appear to have been constructed prior to 1965. However, what appears to be a shed measuring approximately 300 feet by 40 feet is in the location of where Building 67 was later constructed. Adjacent properties are associated with the MDAC C-6 facility.
